PROFILE SUMMARY

Full Stack Developer skilled in building scalable web applications using Java, Spring Boot, React.js, Next.js, TypeScript, and Tailwind CSS. Experienced in REST API development, JWT authentication, state management (Redux, Context API), database integration, and deployment with Docker and Kubernetes. Strong understanding of Agile development, clean architecture, and performance optimization.

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript, HTML5, CSS3

Backend: Spring Boot, Spring MVC, Spring Security, JWT, REST APIs, Hibernate/JPA, Node.js, Express.js

Frontend: React.js, Next.js, Redux, Tailwind CSS

Databases: PostgreSQL, MySQL, MongoDB

Tools & DevOps: Docker, Kubernetes, Git, GitHub, Postman, CI/CD Basics

Core Skills: Full Stack Development, API Integration, Agile, Problem Solving

PROJECTS

DevLog - Developers Blogging Platform [Live](#)

[GitHub](#)

- Developed a full-stack blogging platform enabling users to create, edit, delete, and manage posts with secure JWT-based authentication
- Implemented secure token-based authorization, protected routes, and persistent login state management
- Designed a responsive modern UI in Next.js and Tailwind CSS, improving cross-device accessibility and user experience.
- Deployed backend on Render and frontend on Vercel with environment-variable-based configuration and production-ready API integration
- Utilized GitHub for version control and collaborative development

Tech Stack: Next.js, React, TypeScript, Spring Boot, Java, MongoDB Atlas, JWT, Tailwind CSS, Axios, Render, Vercel

WORK EXPERIENCE

Frontend Developer Intern

October 2025 – April 2026

Anervea.ai, Pune

- Developed responsive user interfaces using React.js, React Hooks, TypeScript, and Tailwind CSS, improving user experience across devices
- Implemented state management using Redux and Context API, managing complex component state across multiple modules
- Built and maintained a reusable front-end component library, improving code reusability and reducing development time across features
- Integrated REST APIs with Axios, reducing data-fetch latency and handling 100% of error states gracefully
- Optimized application performance and scalability via lazy loading, code splitting, and memoization, cutting page load time by 20%

Android Developer Intern

May 2023 – June 2023

Revolution IT Solution, Kolhapur

- Developed and optimized Android application features, improving overall performance by 15%
- Designed and enhanced UI/UX components to create intuitive and user-friendly interfaces
- Translated wireframes and design prototypes into functional UI screens
- Collaborated with designers and developers to deliver a complete Android application within a 1-month timeline

EDUCATION

Bachelor of Technology in Computer Science & Engineering

DY Patil College of Engineering & Technology, Kolhapur | 2021 – 2025 | CGPA: 7.0 / 10

CERTIFICATION

- Docker & Kubernetes for Beginners [View](#)
- AICTE Virtual Internship – Android Development
